

LINUX WORKSHOP

LINUX IS AN ACCUMULATION OF FREE COMPUTER OPERATING SYSTEMS. IN MANY WAYS, LINUX IS SUPERIOR TO WINDOWS. IF YOU CAN USE WINDOWS , YOU CAN USE A LINUX DISTRO. THE SUN CITY COMPUTER CLUB LINUX WORKSHOP WILL SHOW YOU HOW TO CREATE A BOOTABLE LINUX MEDIA, INSTALL THAT LINUX TO YOUR COMPUTER, AND BECOME FAMILIAR WITH IT. OUR DEFAULT DISTRO IS LINUX MINT, BUT THERE IS ALSO UBUNTU, ZORIN, AND MANY OTHERS. LINUX CAN BE PARTICULARLY USEFUL FOR TROUBLESHOOTING AND REVITALIZING OLD COMPUTERS.
